

Standardizer Licensing

Standardizer is a licensed ChemAxon product.

License types:

- **Full license**
allows you to use all functions and actions of Standardizer
to request a full license key, contact sales@chemaxon.com.
- **Academic license**
free for members of the academic community
click [here](#) to learn more

Without a valid Standardizer license key, you can create, save, and modify configurations with any actions, but you can only run standardization if the configuration contains only **free actions**.

Free actions of Standardizer are:

- [Add Explicit Hydrogens](#)
- [Remove Explicit Hydrogens](#)
- [Aromatize](#)
- [Dearomatize](#)
- [Wedge Clean](#)
