

ChemCurator Licensing

ChemCurator is a licensed product.

License types:

- **Full license**

It allows you to use all functions of ChemCurator including compound and Markush extraction functions.

To request a full license key, contact sales@chemaxon.com.

- **Compounds only license**

It allows you to use all compound extraction related functions of ChemCurator but no Markush features.

To request a Compounds only license key, contact sales@chemaxon.com.

- **Viewer only license**

It allows you to open and view any existing ChemCurator project, but you can't create new projects and can't modify the opened projects.

To request a Viewer only license key, contact sales@chemaxon.com.

- **Evaluation license**

The time-limited license offers full functionality for 3 days.

Click [here](#) for the evaluation license or contact sales@chemaxon.com.

Additional licenses for OSR support:

For OSR (optical structure recognition) additional ClideBatch4ChemCurator or [CLiDE Batch](#) license required. ClideBatch4ChemCurator is a discounted version of standard [CLiDE Batch](#) license limited only for ChemCurator desktop usage. Alternatively separately installed [OSRA](#) or [Imago](#) can be used with limited functionality. For ClideBatch4ChemCurator or [CLiDE Batch](#) license please contact to sales@chemaxon.com.

Additional licenses for command-line mode:

For command-line mode (server side usage and batch processing) additional [D2S](#) license required beside of ChemCurator Full or Compounds only license. With installed [CLiDE Batch](#) , [OSRA](#) or [Imago](#) OSR supported either in desktop and command-line mode. For [D2S](#) or [CLiDE Batch](#) license please contact to sales@chemaxon.com.

Please check ChemAxon [License Management](#) for additional details.
